

Control Card of Smoke MQ-2 Specs

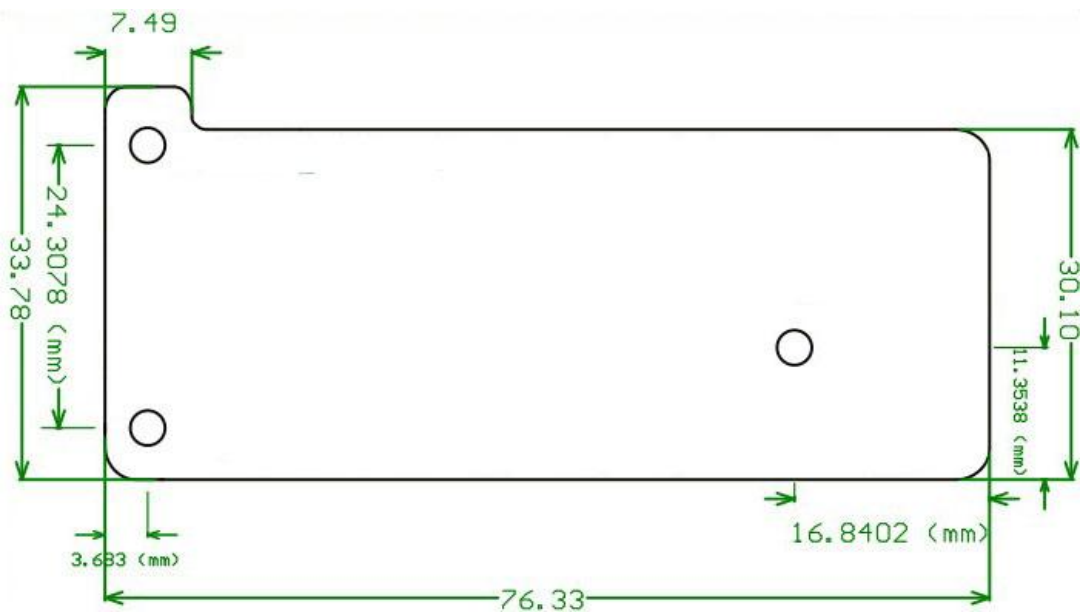

I、Basic Information:

1. Product Type:: Control Card of Smoke
2. Product Model: MQ-2
3. Input Voltage: +5V
4. Rated Power: 7.5W
5. Size: 76.33MM×33.78MM
6. Using scope: smoke control

II、Naming Rules

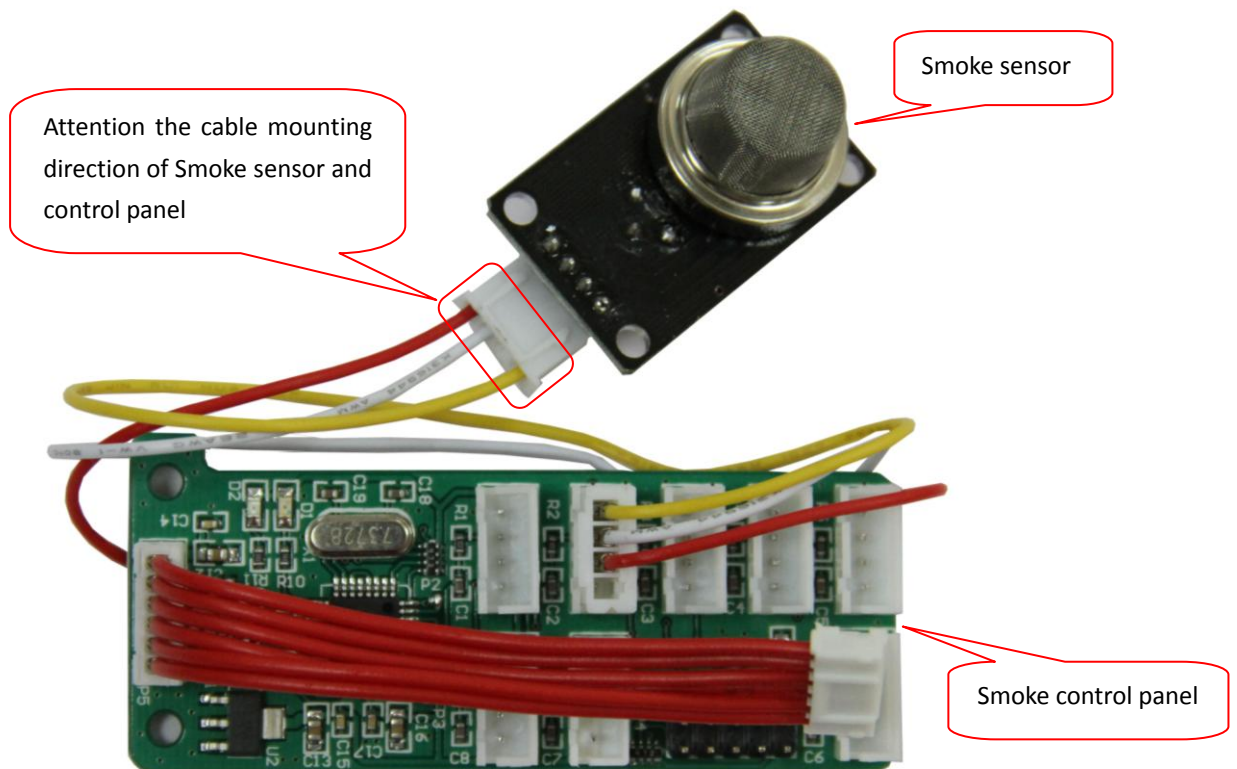

III、Size and Interface

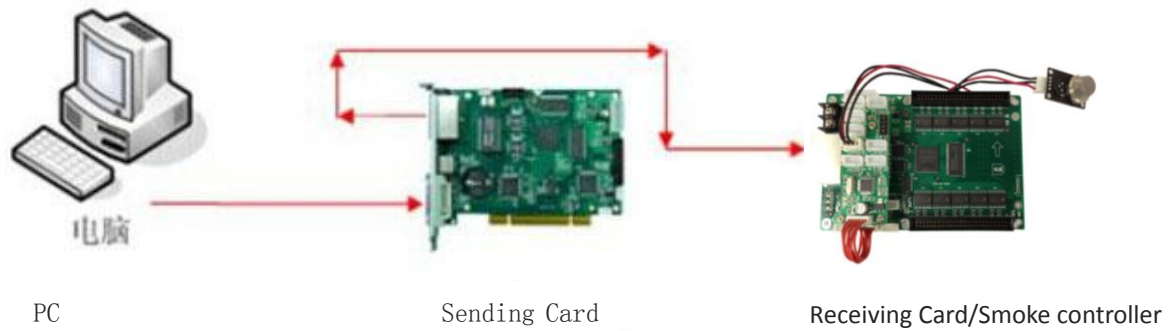

IV、 Technical Parameters

Performance Options	Parameter Value
Supported Screen Module	Single Color/ Dual Color/ Full Color/Virtual Pixel
Working Voltage	5V±0.2V
Working Current	1A -- 1.5A
Detectable concentration range	300-10000ppm (ppm is Volume concentration/1。 1ppm = 1 Cc /1Cm)
Detection of gas type	LPG, butane, propane, methane, alcohol, hydrogen gas, smoke ect.
Extreme Working Temperature	-10℃ ~ 50℃
Working Humidity	0% ~ 95%
